

2017-08-09

Förteckning över material som uppfyller brandskyddskraven enligt Elhandbok för elinstallationer i lantbruk och hästverksamhet.

<https://www.brandskyddsforeningen.se/lbk/lbk-parmen/5elhandbok/>

Märkström $\leq$ 16 A

Godkända produkter enligt UL 94-V0, -V1, UL 746C-16 eller IEC 60695-11-10

Märkström $>$ 16 A

Godkända produkter enligt UL 94-V5, UL 746C-17 eller IEC 60695-11-20

Metallkapslingar är godkända utan genomfört brandprov

Material som uppfyller ovanstående krav men saknas i listan får användas för installation i lantbrukets ekonomibyggnader och hästverksamhet.

Säljaren ska kunna intyga med dokument att nedanstående produkter uppfyller kraven.

Aktuell lista finns på www.lantbruketsbrandskydd.nu/lbk-parmen/5_elhandbok

Separat i slutet på förteckningen finns en förteckning över **ABB:s anslutningsdon** och intyg.

Märkström ≤ 16 A

Metallkapslingar är godkända utan genomfört brandprov

Godkända produkter enligt UL 94-V0, -V1, UL 746C-16 eller IEC 60695-11-10

Information om installation av ABB:s anslutningsdon IEC/CEE i lantbruk

Enligt Lantbrukets Brandskyddskommittés handbok för elinstallationer ska plastkapslingar för apparater med högst 16A märkström som installeras i lantbruk vara provade och godkända enligt UL 94-VO, UL 94-VI, UL 746C-16 eller IEC 60695-11-10.

Plastkapslingar för övriga apparater ska vara provade och godkända enligt UL94-5V, UL 746C-17 eller IEC 60695-11-20.

ABB anslutningsdon IEC/CEE enligt bifogad lista har plastkapslingar tillverkade av PBT (termoplastisk polyester) med brandklass min. UL 94-VI , eller metall och uppfyller ovanstående krav och kan därmed installeras i lantbruk.

Lantbrukets Brandskyddskommitté rekommenderar att man monterar blockerade industrianslutningsdon i brandfarliga utrymmen, utomhus samt i djurstall.
